**DETAILED ACTION**

***Response to Amendment***

1. Applicant's amendment filed on July 27, 2005 has been entered.

Claims 1 and 14 have been amended.

2. The corrected or substituted specification was received on July 27, 2005.
3. The corrected or substituted abstract was received on July 27, 2005.

***Allowable Subject Matter***

4. Claims 1-16 are allowed.
5. The following is the examiner's statement of reasons for allowance:
6. Claim 1 is allowed because in part recites a table top water fountain having "a plurality of light emitting diodes (LEDs) mounted in a view area emitting light directed upward into the view area and into water dropping into the view area" and "a fiber optic light system mounted behind a scene board such that light generated therefrom is emitted laterally from the scene board into the view area wherein the light is reflected and refracted by the water dropping into the viewing area both laterally and vertically due to the upwardly directed light and the laterally directed light." This combination is not taught by the prior arts of record and improves the appearance of the table top water fountain.

Art Unit: 2875

7. Claim 14 is allowed because claim 14 is drawn to a method of illuminating a table top fountain having "upwardly directly light from a plurality of light emitting diodes (LEDs) in which light is transmitted directly upward into the waterfall" and "laterally directed light from a fiber optic light system", which is not taught by the prior arts of the record.
8. Claims 2-13 and 15-16 are allowed because of their dependency upon independent claims 1 and 14 respectively
9. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
